Global Plan of Action
for Sustainable Energy Solutions in Situations of Displacement

25 September 2018
What is the energy situation in displacement settings?
High Forced Migration rates
- 68.5 million displaced by conflict
- 25+ million displaced by natural disaster annually

Energy situation in displacement settings
- 90% no electricity access
- 80% rely on solid fuels for cooking

Political push to rethink response for displaced people: GCR, GCM, CRRF

$100+ million on diesel per year
Why do we need a Global Plan of Action?
What is the Global Plan of Action?

The GPA is a **non-binding framework** that will provide **concrete actions** for a more systemic, collaborative approach on sustainable energy in displacement settings.

**Vision**
Every person affected by conflict and natural disaster has access to affordable, reliable, sustainable and modern energy services by 2030.

**Mission**
Equip all stakeholders with the capacity and resources to mainstream sustainable energy solutions into programming, with the goal of delivering improved protection, dignity, and energy-related social, environmental, and economic benefits to displaced people.
Key Challenges

Energy is not a formal priority in humanitarian assistance.

Displaced people are not included in national or international energy-access agendas.

Energy in displacement settings is underfunded.

Limited expertise and capacity to plan or implement sustainable energy solutions.

Limited and not widely shared data on humanitarian needs and solutions.
History: From Ideas to Action
From Ideas to Actions

2. February - June 2018: Drafting the GPA Framework
The GPA Support Structure
Steering Group, Coordination Unit, Working Groups

Planning and Coordination

Policy, Advocacy and Host-Country Resilience

Steering Group + Coordination Unit

Data, Evidence, Monitoring and Reporting

Technical expertise, Capacity building and Training

Innovative finance
