SDCL’s investment business is focused exclusively on energy efficiency project finance. SDCL has established specialist funds in the UK, Ireland and Singapore. SDCL has established its funds in each country in partnership with government as an investor, promoter or guarantor. The funds seek attractive levels of investment return by financing the capital cost of energy efficiency retrofit projects in return for a savings achieved, creating enduring operating cost savings, carbon emission reductions, compliance with current and future buildings regulations and improvements to productivity and asset values.
