Swedish Energy Agency

Funding Future Innovation
The spirit of Innovation and carbon efficiency

• Alfred Nobel
  – Known for inventing dynamite
  – Nobel held 355 different patents
  – The Nobel Prize is a set of annual international awards

• Tax on carbon since 1970
  – Carbon efficiency is a natural way of life
  – Polluter pay principle
Business development and commercialization

- Started out 2006
- Structured as a traditional VC
- Backbone is the Technical DD
- Funding with grants with limited royalty
- Building Networks
Making future business from Innovations
What we do!
